

# CHIYOU (STEVEN) PENG

Phone: 343-261-6986 | Email: pengchiyou@icloud.com  
Toronto, ON

## Professional Summary

---

- Student leader and full-stack builder with experience spanning campus program coordination, financial-services internship work, and hands-on AI/software development.
- Demonstrated success leading student organizations, developing multi-user software systems, and building partnerships with internal and external stakeholders. Highly organized, adaptable, and comfortable moving between technical and people-facing work.

## Education Background

---

**University of Toronto**

**Expected Graduation: May 2027**

*Human Biology & Environmental Science (Honours Bachelor of Science)*

## Professional Experience

---

**Beijing CAS Software Center Co., Ltd.**

**Beijing, China**

*Data Processing Assistant*

*Jul 2026 – Sep 2026*

- Studied and extended QwenPaw, an open-source AI Agent framework, by reading its Agent/Driver/Loop/Sandbox modules and designing custom Skills, building hands-on experience in agent architecture and prompt engineering.
- Designed and built a multi-user authentication and three-tier permission system (super admin/admin/user) end-to-end, spanning backend (Python, SQLite) and frontend development with full data isolation.
- Migrated the production database from SQLite to Supabase PostgreSQL with zero data loss, refactored the backend data layer, and deployed the application via Docker across Render and Vercel.
- Evaluated multiple data-collection methods (APIs, web scraping, public archives) for a social-media trend-tracking agent and engineered a fallback pipeline after primary channels were blocked by anti-scraping measures.
- Contributed to an enterprise-intelligence platform for investment attraction, building a 50-company profile database with automated monitoring, alerts, and one-click PDF/Word report generation.

**CITIC Securities (CSC Financial)**

**Beijing, China**

*Wealth Management Assistant Intern*

*Jun 2026 – Jul 2026*

- Coordinated administrative and project support across cross-functional initiatives, ensuring deadlines and quality standards were met.
- Prepared reports, presentation decks, and project documentation for internal stakeholders.
- Supported communications initiatives by developing educational materials and AI-assisted digital content.

- Collaborated with colleagues across departments to support project planning, documentation, and operational workflows.

## Leadership Experience

---

### CUAUT Football Club

*Team Captain & General Manager*

**Toronto, ON**

*2025 – Present*

- Lead a student-run organization with 35+ active athletes and 200+ members, overseeing recruitment, scheduling, budgeting, and league registration.
- Plan and execute weekly training sessions, competitive matches, and team-building activities, ensuring smooth logistics and positive experiences.
- Build and maintain partnerships with sponsors, league officials, and community organizations to support club operations and growth.
- Produce promotional content (photography, social media, posters, short-form video) to strengthen club visibility and engagement.

### Goodrec Sports Platform

*Event Operations Coordinator*

**Toronto, ON**

*2025 – Present*

- Coordinate communications between multiple teams before, during, and after league events to ensure smooth information flow.
- Resolve operational issues in real time while maintaining a positive participant experience.
- Collaborate with organizers and team representatives to deliver safe, organized, and well-executed sporting events.

## Business Operations Experience

---

### JD.com

#### Merchant Operations Program

- Analyzed operational and performance data to understand customer-focused business strategies and support workflow optimization.

### Meituan

#### Business Operations Program

- Observed frontline business operations and customer service processes to understand workflow improvement and stakeholder communication.
